

HUATEC

DIGITAL SHORE HARDNESS TESTERS

Shore A & Shore D Durometers

Professional digital durometers for precise hardness measurement of soft and hard materials.
Reliable, accurate and easy to use.

SHORE A DUROMETER (HT-6600A)

Used for measuring the hardness of soft materials such as rubber, soft plastics, elastomers, neoprene, silicone, vinyl, etc.

• Parameters Displayed	Hardness Result, Average Value, Max. Value
• Measurement Range	0 - 100HA
• Measurement Deviation	< 1% H
• Operating Conditions	0°C To 40°C
• Resolution	0.5HA

SHORE D DUROMETER (HT-6600D)

Used for measuring the hardness of hard materials such as hard plastics, thermoplastics, hard rubber, acrylic, plexiglass, etc.

• Measurement Range	0 - 100HD
• Measurement Deviation	< 1% H
• Resolution	0.1 Unit
• Auto Switch	Off
• Tolerance	± 0.5 At "100" And - 0 +1 At "0"

✓ HUATEC Digital Durometers are manufactured with high-precision components to ensure consistent and reliable measurement results.

HUATEC

✓ Type A is suitable for soft materials.
Type D is suitable for hard materials.

این سختی سنج از برند **هواتک** در مجموعه **ان دی تی کالا** وارداتش و عرضه می‌شود.
