

PM2.5 AIR QUALITY DETECTOR

DT-968/969

DT-968/969 are with new core algorithm, comprehensive dynamics, night detection, digital signal processing, optical electromechanical integration, and other high-tech. testing has high precision, stable performance, fast response time, easy to carry, easy to operate.

Product performance

On PM2.5 testing, the innovative design and algorithm, greatly reduce the cost of the tester, and reach international advanced nature of indicators of similar products.

- 2.4 inch TFT color screen
- 240 * 320 pixels
- small size easy to carry
- Automatic shutdown function
- Measure the temperature and humidity
- PM Measure the PM2.5 / PM10 mass concentration of particulate matter

HIGH PRECISION SENSOR

Machine equipped with high precision laser sensor can accurately reflect air quality quickly, test, no drop of enthusiasm.

Accurate measurement

Fast measurement

A KEY OPERATION

Concise appearance, with the match is more simple operation. Full-body one-button design, not only can display test data, but also a key to switch to time mode.

Automatic shutdown function

Even dark,Can also be dazzling

HD display with wide color gamut color display, Even in the night can clearly read.

2.4 inch TFT color screen

240 * 320 pixels

Belong to your clean air all day long

Office environment pollution real-time monitoring, office workers selected artifact, air quality problems in control.

Measure the temperature and humidity

Measure the PM2.5 / PM10 mass concentration of particulate matter

INDUSTRIAL PRODUCTION STANDARDS

From design to production is seamless control, truly every detail is industrial-grade standard, just to give you a safe and secure experience.

Features			Specifications			
	DT-968	DT-968			DT-968	DT-969
2.4" TFT 320x240 pixels color LCD display	*	*	Particle Counter Channel	2.5, 10um	*	*
The determination of suspend particle concentration in the air of the weight method (PM2.5/PM10)	*	*	Mass Concentration	PM2.5: 0~2000ug/m3; PM10: 0~2000ug/m3	*	*
PM2.5/PM10	*	*	Resolution	1ug/m3	*	*
Air temperature and humidity	*	*	Air Temperature Measurement			
Analog bar indicator	*	*	Air Temp Range	0 to 50°C/32 to 122°F	*	*
Auto Power off	*	*	Basic Accuracy	±1°C/2°F	*	*
Wireless interface		*	Humidity Range	0 to 100%RH	*	*
			Basic Accuracy	±5%RH @ 0 to 20%RH and 80 to 100% ±3.5%RH @20 to 80%RH	*	*

Accessories: NIMH battery, gift box with carrying case Size(HxWxD): 160mm x 85mm x 73mm Weight: 360g
