

DT-176

Waterproof pH/Conductivity Meter DT-176 Combination rugged Flat Surface pH electrode & innovative design with flat surface technology support quick on-the-spot pH measurements with autoranging high accuracy.

Features
Measures pH and Temperature using one electrode
Memory stores up to 25 labeled readings
RENEW feature alerts user when electrode needs replacement
Auto power off and low battery indicator
Waterproof to IP57

Specifications:			
Specifications:	Range	Max Resolution	Basic Accuracy
pH	0.00 to 14.00pH	0.01pH	±0.01pH
Temperature	23° to 194°F (-5 to 90°C)	0.1°F/°C	±1.8°F/±1°C
Waterproof	IP57		
Memory	25 datasets		

Waterproof pH/Conductivity Meter

DT-176 Combination rugged Flat Surface pH electrode & innovative design with flat surface technology support quick on-the-spot pH measurements with autoranging high accuracy.

Accessories: NiMH battery, gift box with carrying case.
