# GTS820F

## coating thickness gauge

### Features

- Fast, repeatable measurements
- Ready to measure - no adjustment required
- Single or Two Point Calibration Adjustment for complex applications
- Large Backlight Dot Matrix Display
- Auto Power-Off
- Auto recognition of the substrate (Fe )
- Metric / Imperial Switchable
- Min. Measuring Area : 5.0mm
- 600 Data memory
- Low Battery Indicator
- USB & Bluetooth Data Output**
- App Available on iOS, Android & Windows

Conforms to ISO2178 & ISO2361  
as well as DIN, ASTM & BS.

<b>Measurement Range</b>	0 - 1500 $\mu$ m	0 - 60 mils
<b>Accuracy</b>	$\pm (1 + 2\% \mu\text{m})$	$\pm (0.1 \text{ mils} + 2\%)$

**Size:** 126 x 69 x 35mm  
(5" x 2.7" x 1.4")

**Weight:** 97g (3.4 oz.)  
without batteries

### Scope of Delivery

GTS820F Instrument with FNF Probe,  
Precision Plastic Shims (Fe ) Calibration Blocks,  
2 x AA Batteries, Manual & ABS Plastic Carry Case.
