# Auto Body Repair Just 30Sec

| Model | Input Voltage | Input Current | Output Power | Output Voltage | Output Current |
|---|---|---|---|---|---|
| PDR 007 | 220V 50Hz | 1.5A | 400W | 170V 50KHz | 7A |
| PDR 007 | 110V 60Hz | 2.2A | 320W | 90V 50KHz | 7A |

Package Size:39x33x12CM  Package Weight：3.5 Kg

## WOYO PDR007 Tool is a fast repair tool for autobody.

1.WOYO PDR007 is easy to use, any worker with a background in metal composition can master it in three minutes.
2.WOYO PDR007 can fix soft dents on metal surfaces in only thirty seconds.
3.Rapidly recoup their investment. In one case, a customer was able to recoup their investment after repairing only six cars.
4.Features a large display screen for precise control and monitoring progress in real-time.
5. Application: soft dent, dent in non-marginal area.
6.Certificate CE FCC RoHS PSE UKCA.
7.Repair method: With rapid, focused heating induction on the dent surrounding via the repair handle, the dent stretched and repaired by itself.
For more details, please look at the video via link: www.woyosmart.com.
8.Time control mode: Repair dark color dent suggested.
The working time can be preset while the power is always 100%, meaning if you want to heat for example 0.5 sec, then you can preset this time and it will stop working after the set time. The time setting range from 0.5 sec to 4 sec. This can be helpful in the dent removal application to avoid burning the dent. We also added an extra dial " MAX" to extend the working time as you want.
9.Power control mode: Repair light color dent suggested.
The power can be preset from 20% to 100%. Using the power control mode, the working time can be adjusted by ON/OFF on the repair handle.
